

Guardian™ Antimicrobial

Helps protect your floor covering from life's little messes.

Rather than being featured as simply a top layer, Guardian™ antimicrobial is actually infused into your carpet cushion, providing fail-safe and long-lasting protection against mold, mildew, and odor-causing bacteria.

Protect your carpet investment and keep your home clean with a carpet cushion infused with **Guardian**.

- **Inhibits the growth** of mold, mildew, and odor-causing bacteria
- **Antimicrobial** keeps microorganisms from growing in cushion
- EPA-registered, hypoallergenic, and **safe for the home**
- **Protection throughout** the cushion
- **Treatment lasts** for the life of your cushion
